Potatoes

EARLY OHIO RED RIVER SEED STOCK—

We wish to call special attention to the superior strain of our Early Ohio potatoes. They are grown in the Red River Valley by a grower who supplies the best quality seed to a number of the largest seedmen in the United States. The seed is pure, and is grown from selected stock that was grown two hundred miles north of the Red River Valley. Absolutely no culls, but the *best seed*, from which you will get the *best results*. We handled a car of these potatoes in the season of 1907 and feel safe in making the assertion that they were the best seed stock that ever came to St. Joseph. All of our trade were well satisfied and we wish to supply you with our seed stock for we know that the quality and results will more than please you.

Remember that they are not ordinary stock, but strictly fancy. *Price, per Bushel, \$1.50; in 10 Bu. lots, \$1.25 per Bushel.*

Onion Sets

We beg to advise the crop of Onion Sets is very short this year. Prices will be the highest for several years. We have a good supply for the gardener trade and would advise the placing of your orders early, so as to be sure and supply your needs before they are exhausted.
